VAAGESWARI COLLEGE OF ENGINEERING

(Affiliated to JNTUH, Hyderabad.)

(Approved by AICTE New Delhi & Recognised by the Govt. of Telangana State)

Date: 28/06/2022

To
The Principal,
Vaageswari College of Engineering,
Karimnagar.

Subject: Request Proposal to Conduct Five day FDP on "IOT USING ARDUINO"-Reg.

Respected Sir,

In Accordance to Subject cited above I, Head of the Department of Electronics and Communication Engineering here with request with this letter to permit us to conduct a Five day Faculty Development Program on "IOT USING ARDUINO" during **11-07-2022 to 15-07-2022**. I also request you to provide all the required facilities.

Thanking You,

Yours Sincerely

HOD-Dept. of ECE.

Permitted

Principal
Vaageswari College of Engineering
KARIMNAGAR-505 527.

SREE VAAGESWARI EDUCATIONAL SOCIETY
VAAGESWARI COLLEGE OF ENGINEERING

(Affiliated to JNTUH, Hyderabad.)

(Approved by AICTE New Delhi & Recognised by the Govt. of Telangana State)

Date: 01-07-2022

CIRCULAR

It is hereby informed to Department of Electronics and Communication Engineering that a five day Faculty Development Program will be held on "IOT USING ARDUINO" from 11th to 15th JULY 2022. All the teaching and non-teaching members should avail this opportunity to upgrade the technical skills.

Hence, all teaching and non-teaching members should attend the above FDP program without fail.

Copies to:

- To circulate among all the staff members
- All the Notice Boards
- To all HODS
- Office file

KARIMNAGAR-505 527.

FDP CONTENT:

The primary objective of this one-week online Faculty Development Program (FDP) on Internet of Things (IoT) is to enrich faculty members of Computer Science & related Engineering streams with us ability of the IOTs across various real-world applications and design different application on and communication protocols for IOTs. Designing the solutions for several applications using IOTs by integrating machine learning/deep learning will be elaborated.

PROGRAMME CONTENT

IoT Network Design and Architecture

IoT enabled Software Architectures and Middleware

Introduction to IoT applications

Introduction to Arduino

Understand Arduino

Arduino Architecture

Arduino programming

Sensor based I/O Applications]

Analog and Digital Sensor and its interfacing

Introduction to NODE MCU

IoT cloud using ESP8266

Setup IoT connectivity using ESP8266 WiFi Module

Develop and test an IoT weather monitoring station

FIVE-DAY FACULTY DEVELOPMENT PROGRAM

ON

IoT USING ARDUINO

11th to 15th July 2022

ABOUT THE INSTITUTE:

Established in 2003, is one of the most prestigious society providing high quality professional education in Karimnagar district Telangana. The society is running multiple educational institutions like Vaageswari College of Engineering (2005), Pharmacy (2003), Pharmaceutical Sciences (2007), Management Sciences (2008). The society was established with a great vision to provide quality education on par with global standards to the students from all over India in general and in particular those from local and rural areas. Society is maintaining high standards so as to make them technically competent and ethically strong individuals who shall be able to improve the quality of life and become an asset to the economy of our country. The Society not only celebrates freedom of thought, cultivates vision and encourages growth, but also inculcates human values and concern for the environment and the society. The institution is awarded with Best Chapter of ISTE AP Section.

VISION:

"To develop the Sree Vaageswari Educational Society into a center of excellence in imparting professional and technical education, to inculcate knowledge and power to the younger generation by providing high quality professional education on par with global standards and to instill high levels of discipline among student community making them ethically strong citizens capable of contributing to the development of society and mankind".

PROGRAMS OFFERED:

The college offers B.Tech. programmes in CSE, EEE, ECE, Civil and Mechanical Engineering. The college also offers MCA, MBA and M.Tech. in Computer Science and Engineering.

ABOUT THE DEPARTMENT:

The department of Electronics and Communication Engineering (ECE) was started in 2005 with an intake of 60 and in a short span of time the intake increased to 180. The department has got M.Tech in ECE with an intake of 36 during this academic year (2010-11).

The department comprises of well experienced and dedicated faculty with vast experience in teaching. The faculty members have been meticulously and judiciously picked up to impart quality education and inculcated all-round development in the Students. The department has well established labs with state of art hardware equipments and advanced softwares.

The department is run by well qualified and experienced faculty under the able guidance and leadership of Mr. D.Sampath Kumar, HOD, ECE.

Consequently, the administration is trying to play the role of resources and technical leadership in development activities at the national level.

The department also seeks to provide its students with excellent educational and educational opportunities in the field of electronics and communications engineering, thus providing a lasting technical basis in an environment of rapid technical change. In the process, it enables and promotes their professional growth through contact with best professional practices. Consequently, the administration is trying to play the role of resources and technical leadership in development activities at the national level.

REGISTRATION FORM:

Please fill this form and send it to us by email to s4.ecehod@gmail.com before 07th July 2022

INVITATION LETTER

To,

Mrs. K. Jayaprada,

Assistant Professor,

Department of Electronics and Communication Engineering,

Jayamukhi Institute of Technological Sciences,

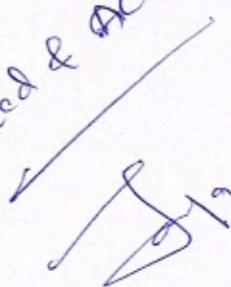

Warangal-506332.

Sub: Invitation to be a resource person for five day Faculty Development Program on **"IOT Using ARDUINO"**-regarding.

Dear Sir,

On behalf of Vaageswari College of Engineering, I cordially invite you to deliver a lecture on **IOT Using ARDUINO** which will be held from 11th to 17th July 2022. I would be thankful if you share your expertise on the topic with our faculty.

I will be eagerly looking forward to hear from you and hope that you would accept our invitation for the event.

ACTION TAKEN

The organizing committee has taken a decision to conduct the upcoming Faculty Development Programmes in a very effective and efficient manner. The committee also decided to invite speakers from very reputed organizations. It has been decided to make the programmes more of practical oriented and more focus is to be put on emerging technologies in Electronics and communication Engineering. The committee also decided to conduct workshops on Circuit modeling using PSPICE.

Department of Electronics and Communication Engineering

Five-Day Faculty Development Program on

IOT USING ARDUINO

(11/07/2022-15/07/2022)

REPORT

Five Day Faculty Development Programme on “IoT USING ARDUINO” was organized by Department of Electronics and Communication Engineering, Vaageswari college of Engineering from 11th to 15th July 2022 for the faculty of ECE Department. Several faculty members of the Department actively participated and gained useful information from all the sessions.

Mr.G.S,Arun Kumar, Assistant Professor, ECE Department, Vaageswari college of Engineering conducted FDP on IOT using Arduino. It was initiated with the introduction to Arduino and IDE.

IoT is embedded with Electronics, Internet connectivity, and other forms of hardware, these devices can communicate and interact with others over the Internet, and they can be remotely monitored and controlled. Arduino is an open-source Electronics platform based on easy-to-use hardware and software. Arduino senses the environment by receiving inputs from many sensors, and affects its surroundings by controlling lights, motors, and other actuators.

Outcomes of the Faculty Development Program:

IoT Network Design and Architecture

Introduction to IoT applications

Introduction to Arduino

Analog and Digital Sensor and its interfacing

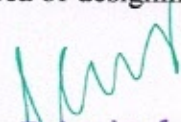

Introduction to NODE MCU and IoT cloud using ESP8266

IoT enabled Software Architectures and Middleware

TECHNICAL SESSIONS:

1st Day (11-07-2022)

This FDP is intended to make the participants aware and able to work on this emerging area. Around 24 participants attended this FDP to gain knowledge in the area of designing projects and applications by the use of IoT with Arduino.

Principal

Vaageswari College of Engineering
KARIMNAGAR-505 527.

During the day Mr.G.S,Arun Kumar, Assistant Professor, ECE Department introduced the audience to IoT, key components of IoT, variety of sensors and applications of IoT.

2nd Day (12-07-2022)

Mr.M.Kranthi Kumar Assistant Professor, ECE Department introduced the participants about Arduino and IoT Network Design. The participants interacted with resource person and discussed about implementation problems they are facing in their research work.

3rd Day (13-07-2022)

Mr.P.Ajay Kumar, Assistant. Professor, Department of ECE. Addressed the participants about IoT Architecture and IoT enabled Software Architectures.

The participants fascinated with IoT enabled Software Architectures and interacted with resource person and clarified their doubts regarding Software Architectures.Sir has demonstrated all methods involved in Software Architectures.

4th Day (14-07-2022)

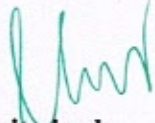

Mr.P.Ajay Kumar, Assistant. Professor, Department of ECE, had covered the topic Analog and Digital Sensors and Sensors Interfacing .The participants interacted with the resource person and their doubts on Sensors.

5th Day (15-07-2022)

Mr.M.Kranthi Kumar Assistant Professor, ECE Department had, covered the topic - Introduction to NODE MCU and IoT cloud using ESP8266 followed by Valedictory for the event.

Subject: Request Proposal to Conduct Five day FDP on "**Advanced Research Trends in Image Processing**"-Reg.

Respected Sir,

In Accordance to Subject cited above I, Head of the Department of Electronics and Communication Engineering here with request with this letter to permit us to conduct a Five day Faculty Development Program on "**Advanced Research Trends in Image Processing**" during **14-11-2022 to 18-11-2022**. I also request you to provide all the required facilities.

Thanking You,

Yours Sincerely

HOD-Dept. of ECE.

Date: 07-11-2022

CIRCULAR

It is hereby informed to Department of Electronics and Communication Engineering that a five day Faculty Development Program will be held on “**Advanced Research Trends in Image Processing**” from 14th to 18th November 2022. All the teaching and non-teaching members should avail this opportunity to upgrade the technical skills.

Hence, all teaching and non-teaching members should attend the above FDP program without fail.

Copies to:

- To circulate among all the staff members
- All the Notice Boards
- To all HODS
- Office file

FDP CONTENT:

Image Processing is a scientific discipline as well as technology frontier, with immense applications. The treatment of speech processing requires an initial grounding in digital signal processing. This allows us to understand a proper coverage of basic speech processing algorithms. Image processing is a growing research field where many revolutionary ideas and efficient algorithms have been developed over the past few decades.

The objective of this program is to introduce the participants to the world of Image Processing, and give an insight into how and where it can be used. This Program will be useful to learn the fundamentals of Digital Processing of Satellite Image data and Biomedical Image data. Hands-on exercises with MATLAB software will open the door for programming in image processing

PROGRAMME CONTENT

- Fundamentals of Image Processing
- Mathematical tools for Image processing
- Morphological Image Processing & Compression
- Soft Computing Techniques
- Image Mining
- Image Security
- Iris Pattern Recognition
- Multimodal Biometrics
- Medical Image Processing.

FIVE-DAY FACULTY DEVELOPMENT PROGRAM

ON

**Advanced Research Trends in Image
Processing**

14th to 18th November 2022

Organized

By

Department of Electronics & Communications Engineering
VAAGESWARI COLLEGE OF ENGINEERING
(APPROVED BY AICTE, AFFILIATED TO JNTUH)
RAMAKRISHNA COLONY, KARIMNAGAR
www.vgsek.ac.in

ABOUT THE INSTITUTE:

Established in 2003, is one of the most prestigious society providing high quality professional education in Karimnagar district Telangana. The society is running multiple educational institutions like Vaageswari College of Engineering (2005), Pharmacy (2003), Pharmaceutical Sciences (2007), Management Sciences (2008). The society was established with a great vision to provide quality education on par with global standards to the students from all over India in general and in particular those from local and rural areas. Society is maintaining high standards so as to make them technically competent and ethically strong individuals who shall be able to improve the quality of life and become an asset to the economy of our country. The Society not only celebrates freedom of thought, cultivates vision and encourages growth, but also inculcates human values and concern for the environment and the society. The institution is awarded with Best Chapter of ISTE AP Section.

VISION:

"To develop the SreeVaageswari Educational Society into a center of excellence in imparting professional and technical education, to inculcate knowledge and power to the younger generation by providing high quality professional education on par with global standards and to instill high levels of discipline among student community making them ethically strong citizens capable of contributing to the development of society and mankind".

PROGRAMS OFFERED:

The college offers B.Tech. programmes in CSE, EEE, ECE, Civil and Mechanical Engineering. The college also offers MCA, MBA and M.Tech. in Computer Science and Engineering.

ABOUT THE DEPARTMENT:

The department of Electronics and Communication Engineering (ECE) was started in 2005 with an intake of 60 and in a short span of time the intake increased to 180. The department has got M.Tech in ECE with an intake of 36 during this academic year (2010-11).

The department comprises of well experienced and dedicated faculty with vast experience in teaching. The faculty members have been meticulously and judiciously picked up to impart quality education and inculcated all-round development in the Students. The department has well established labs with state of art hardware equipments and advanced softwares.

The department is run by well qualified and experienced faculty under the able guidance and leadership of Mr. R.Naraiah, HOD, ECE.

Consequently, the administration is trying to play the role of resources and technical leadership in development activities at the national level.

The department also seeks to provide its students with excellent educational and educational opportunities in the field of electronics and communications engineering, thus providing a lasting technical basis in an environment of rapid technical change. In the process, it enables and promotes their professional growth through contact with best professional practices. Consequently, the administration is trying to play the role of resources and technical leadership in development activities at the national level.

REGISTRATION FORM:

Speaker Profiles

Mr. G.S.Arun Kumar, completed his M.Tech from Jawaharlal Nehru Technological University. Currently he is working as an Associate Professor at Vaageswari College of Engineering. His research interests include Image enhancing techniques.

Mr.B.Rammohan Reddy, completed his M.Tech from Jawaharlal Nehru Technological University. Currently he is working as an Assistant Professor at Vaageswari College of Engineering. His research interests include MATLAB fundamentals.

Mr.B.Thirupathi, completed his M.Tech from Jawaharlal Nehru Technological University. Currently he is working as an Assistant Professor at Vaageswari College of Engineering. His research interests include Signal Processing.

Mrs.EJyothi, completed her M.Tech from Jawaharlal Nehru Technological University. Currently she is working as an Associate Professor at Vaageswari College of Engineering. Her research interests include MATLAB fundamentals.

ACTION TAKEN

The organizing committee has taken a decision to conduct the upcoming Faculty Development Programmes in a very effective and efficient manner. The committee also decided to invite speakers from very reputed organizations. It has been decided to make the programmes more of practical oriented and more focus is to be put on latest and emerging techniques related to Image Processing. The committee decided to organize more programmes on Advanced Digital Signal Processing.

Department of Electronics and Communication Engineering

Five-Day Professional Development Program on

Advanced Research Trends in Image Processing

(14/11/2022-18/11/2022)

REPORT

A five Day Faculty Development Program on "Advanced Research Trends in Speech and Image Processing" was organized by Department of Electronics and Communication Engineering, Vaageswari college of Engineering from 14th to 18th November 2022 for the faculty of ECE Department. Several faculty members of the Department actively participated and gained useful information from all the sessions.

The program is designed to design and develop Digital circuits at Schematic and Layout levels. The program provided an opportunity to acquire knowledge about current technological developments in the field of Image Processing. This Program will be useful to learn the fundamentals of Digital Processing of Human Speech data, Satellite Image data and Biomedical Image data. Hands-on exercises with MATLAB software will open the door for programming in image processing

Outcomes of the Faculty Development Program:

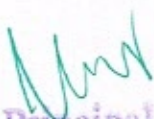

1st Day (14-11-2022)

This FDP is intended to make the participants aware and able to work on this emerging area. Around 20 participants attended this FDP to gain knowledge in the area of designing projects and applications by the use of Image Processing.

During the day Mr. G.S, Arun Kumar, Assistant Professor, ECE Department introduced the audience about Fundamentals of Image Processing.

2nd Day (15-11-2022)

Mr.B. Rammohan Reddy Assistant Professor, ECE Department introduced the Participants about Image enhancement techniques followed by Morphological Image Processing and Compression.

Principal
Vaageswari College of Engineering
KARIMNAGAR-505 527.

3rd Day (16-11-2022)

Mr.B.Thirupathi, Assistant Professor, Department of ECE, had covered the topic Satellite Imaging followed by Hands on session.

4th Day (17-11-2022)

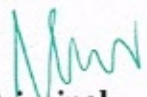

Mrs.E.Jyothi, Associate Professor, Department of ECE, had covered the topic Medical Imaging followed by Hands on session.

5th Day (18-11-2022)

Mrs.E.Jyothi, Associate Professor, Department of ECE, had covered the topic of Filtering Techniques followed by Hands on session. After the break valedictory was held.

Subject: Request Proposal to Conduct Five day FDP on “**MICROPROCESSORS, MICROCONTROLLERS AND APPLICATIONS**”-Reg.

Respected Sir,

In Accordance to Subject cited above I, Head of the Department of Electronics and Communication Engineering here with request with this letter to permit us to conduct a Five day Faculty Development Program on “**MICROPROCESSORS, MICROCONTROLLERS AND APPLICATIONS**” during **13-03-2023 to 17-03-2023**. I also request you to provide all the required facilities.

Thanking You,

Yours Sincerely

HOD-Dept. of ECE.

CIRCULAR

It is hereby informed to Department of Electronics and Communication Engineering, that a Five day Faculty Development Program will be held on “**MICROPROCESSORS, MICROCONTROLLERS AND APPLICATIONS**” from 13th to 17th March 2023. All the teaching and non-teaching members should avail this opportunity to upgrade the technical skills.

Hence, all teaching and non-teaching members should attend the above FDP program without fail.

WORKSHOP CONTENT:

Each year, the microprocessor moves closer to the center of our lives, staking out its place in the heart of one machine after another. How generalized microprocessor work, can be easily determined by the study of Intel 8086. Nowadays in our day to day life, we are using tremendous applications of microprocessor such as washing machine, Traffic light controller, Elevator, Automatic voice system in trains etc. The motto behind this workshop is to train the faculty for such basic application of microprocessor with exposure to real time hardware. A microcontroller can be considered a self-contained system with a processor, memory and peripherals and can be used as an embedded system. The majority of microcontrollers in use today are embedded in other machinery, such as automobiles, telephones, appliances, and peripherals for computer systems. Also Microcontrollers are used in automatically controlled products and devices, such as automobile engine control systems, implantable medical devices, remote controls, office machines, appliances, power tools, toys and other embedded systems.

- 8086 Architecture, 8086 bus architecture
- Memory Interfacing to 8086
- Programming of 8086 through assemblers and Emulators (ESA and ANSHUMEN Boards)
- 8255 Interfacing to 8086, Interfacing Hex keypad, Seven Segment display, ADC and DAC to 8086
- Elevator Interfacing, traffic light Controller and DC motor Interfacing, 8253 and 8259 interfacing to 8086
- 8051 and Atmega16 Microcontroller Architectures, Programming of 8051 and Atmega 16 microcontroller, Key pad and LCD Interfacing
- ARM micro controller

FIVE-DAY FACULTY DEVELOPMENT PROGRAM ON MICROPROCESSORS, MICROCONTROLLERS AND APPLICATIONS

Organized by

Department of Electronics and
Communication Engineering

VAAGESWARI COLLEGE OF

ENGINEERING

Karimnagar, Telangana- India

13th to 17th March, 2023

ABOUT THE INSTITUTE:

Established in 2003, Vaageswari Educational Society is one of the most prestigious society providing high quality professional education in Karimnagar district of Telangana. The society is running multiple educational institutions like Vaageswari College of Engineering (2005), Pharmacy (2003), Pharmaceutical Sciences (2007), Management Sciences (2008). The society was established with a great vision to provide quality education on par with global standards to the students from all over India in general and in particular those from local and rural areas. Society is maintaining high standards so as to make them technically competent and ethically strong individuals who shall be able to improve the quality of life and become an asset to the economy of our country. The Society not only celebrates freedom of thought, cultivates vision and encourages growth, but also inculcates human values and concern for the environment and the society. The institution is awarded with Best Chapter of ISTE AP Section.

VISION:

"To develop the Sree Vaageswari Educational Society into a center of excellence in imparting professional and technical education, to inculcate knowledge and power to the younger generation by providing high quality professional education on par with global standards and to instill high levels of discipline among student community making them ethically strong citizens capable of contributing to the development of society and mankind".

PROGRAMS OFFERED:

The college offers B.Tech programmes in CSE, EEE, ECE, Civil and Mechanical Engineering. The college also offers MCA and M.Tech in Computer Science and Engineering.

ABOUT THE DEPARTMENT:

The department of Electronics and Communication Engineering (ECE) was started in 2005 with an intake of 60 and in a short span of time the intake increased to 180.

The department comprises of well experienced and dedicated faculty with vast experience in teaching. The faculty members have been meticulously and judiciously picked up to impart quality education and inculcate all-round development in the Students. The department has well established labs with state of art hardware equipments and advanced software's.

The Department's main objective is not only make the students excel in theory but also in experimental research through academic projects in various fields. The Department regularly organizes several programs such as workshops, guest lectures, seminars etc. to impart state of art knowledge in different technologies to the students as well as faculty members. Department is dedicated to advancing, disseminating and exploiting knowledge in engineering and technology. The department offers a four-year course a Bachelor's degree in Electronics and Communication Engineering. Department has the most advanced art of advanced equipment in the laboratory. All employees can reach students for any of their problems, whether academic or non-academic. The department aims to technically develop students and make them mentally strong to meet future challenges.

The department also seeks to provide its students with excellent educational and educational opportunities in the field of electronics and communications engineering, thus providing a lasting technical basis in an environment of rapid technical change. In the process, it enables and promotes their professional growth through contact with best professional practices. Consequently, the administration is trying to play the role of resources and technical leadership in development activities at the national level.

The lectures were clear and easy to understand

ACTION TAKEN

The organizing committee has taken a decision to conduct the upcoming Faculty Development Programmes in a very effective and efficient manner. The committee also decided to invite speakers from very reputed organizations. It has been decided to make the programmes more of practical oriented and more focus is to be put on latest and emerging techniques related to Microcontroller Programming. The committee decided to organize more programmes on Advanced Microcontroller Programming.

REPORT

A Five Day Faculty Development Programme on “MICROPROCESSORS, MICROCONTROLLERS AND APPLICATIONS” was organized by Department of Electronics and Communication Engineering, Vaageswari college of Engineering from 13th to 17th March, 2023 for the faculty of ECE Department. Several faculty members of the Department actively participated and gained useful information from all the sessions.

Mrs. E.Jyothi Reddy, Associate Professor, ECE Department, Vaageswari College of Engineering conducted this program on Microprocessors, Microcontrollers and Applications.

Nowadays in our day to day life, we are using tremendous applications of microprocessor such as washing machine, Traffic light controller, Elevator, Automatic voice system in trains etc. The motto behind this workshop is to train the faculty for such basic application of microprocessor with exposure to real time hardware. A microcontroller can be considered a self-contained system with a processor, memory and peripherals and can be used as an embedded system.

Outcomes of the Faculty Development Program:

- 8086 Architecture, 8086 bus architecture
- Memory Interfacing to 8086
- Programming of 8086 through assemblers and Emulators (ESA and ANSHUMEN Boards)
- 8255 Interfacing to 8086, Interfacing Hex keypad, Seven Segment display, ADC and DAC to 8086
- Elevator Inter facing, traffic light Controller and DC motor Interfacing , 8253 and 8259 interfacing to 8086
- 8051 and Atmega16 Microcontroller Architectures, Programming of 8051 and Atmega 16 microcontroller, Key pad and LCD Interfacing
- ARM microcontroller
