Mrs. E. Jyothi Reddy, speaker of the session starting with introductory remarks.

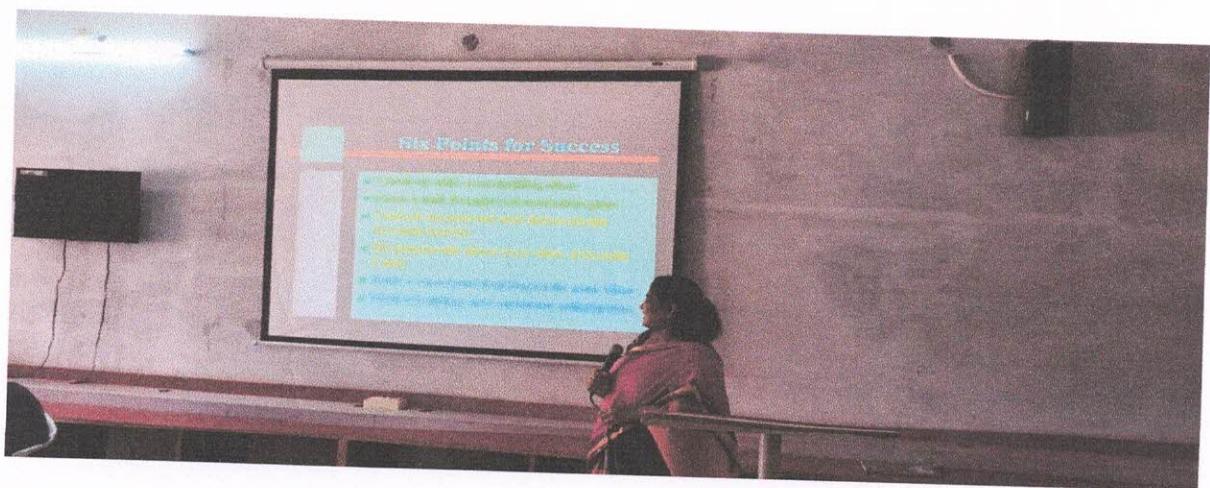

Push-Pull factors and Women in business

The greatest deterrent to women entrepreneurs is that they are women. A kind of patriarchy exists in society which makes it difficult for women to start their own business.

- Women entrepreneurs face many challenges in their business, such as lack of access to capital, lack of social support, and lack of recognition.
- Women's family obligations also bar them from becoming successful entrepreneurs in both developed and developing nations. Cont. d
