Report on the student attributes facilitated by the institution

During an induction program, the students are introduced to all these activities that the institute offers. One can choose to join any of these based on interest. Students cannot join something that interests him/her until he/she knows that the institute offers that particular activity!

The main purpose of induction training is to integrate new employees into the company and make them understand the systems and procedures followed by the organization. Induction training helps new employees settle down quickly in the new work environment, and gives them a sense of belonging.

This kind of facility make friendly environment and knowing the importance of the course. The students motivated by all the facilities through that they are easily attain their goals in future. Their punctuality, interest in specialization and their practical knowledge will increase. The program creates friendly environment between faculty and student so that they can clarify their doubts without hesitate.
