Policy document on implementation of environment and energy usage

The principal and member secretary briefed that the college understands the importance and essence in implementing environment and energy usage in the campus. We take initiation about sustainable materials and living ccknowledges. There is an urgent need to establish environmental sustainability in every we do. In a modern economy, environmental sustainability will play a critical role in the very existence of an organization. The first step is to increase the water conservation activities to reduce water consumption at source. We are further implementing environment and energy usage policy in the institution to undergo various practices to bring education combined with determinatioin of environmentally friendly practices.

The members have taken note of the same.
