ECO-FRIENDLY DRIVE: STUDENTS DESIGN HYDROGEN-POWERED CAR

IN AN ERA OF GAS GUZZLING SUVs, THESE FIVE STUDENTS DESIGN A VEHICLE THAT RUNS ENTIRELY ON HYDROGEN

KARIMNAGAR • Naveen Kumar Tallam

ripada. Shiva Kumar, a final year Mechanical Engineering student of Vajrapuram College of Engineering along with four of his classmates - Bhadrachari, Sampath Kumar, Sanjay and Srinivas - had a vision to build a four-wheeler that runs on hydrogen. They also conducted a test drive of the vehicle. Bhadrachari, who is also a test driver, said, "I will date, the vehicle has travelled over 100 kilometres. HoD of Vajrapuram College of Engineering, P. Srinivas Reddy, said, "The college is providing all support to encourage students in pursuing their ideas. A guide and Assistant Professor, C. Srinivas Reddy, signed the four-wheeler. The students named the vehicle "Hydrogen Express". With one litre of hydrogen, the vehicle could be run for 45 kms.

Ravinder told that in view of the successful design, Mechanical Engineering students from different colleges are visiting and interacting with them. "I feel proud, and many projects from other students are in progress," he said.

WHAT WENT INTO IT

The students designed the shape of the vehicle using AutoCAD, used the engine of a Pulsar 150 CC bike, wheels of TVS Scooty Pep, steering of Maruti 800 and it took them 28 days to assemble the parts. A 12 V battery was used and 9 amp of output gets produced from the battery.

Eco friendly battery powered vehicle designed by our students in the part of course project work. It is a proud moment of Vaageswari College of Engineering.
