To
The Principal,
Vaageswari college of Engineering,
Karimnagar.

Respected sir,

Sub: Requisition to conduct Add-on certification program on “**BLOCKCHAIN**” for II,III,IV Year students from 10th Dec 2022 to 21st Dec 2022-reg.

It is our pleasure to inform you that the Department of CSE is planning to conduct Add-on/Certification program on “BlockChain” for II,III,IV Year CSE students from 10th Dec 2022 to 21st Dec 2022. This course contains complete in Connected computers reach agreement about shared data section,a distributed database that maintains a continuously growing list of ordered records, called blocks,Block chain is a new economic infrastructure that enables records to be maintained ,Hands-on experience on software and technologies involved in BlockChain .

The student can learned as:

- Smart Contracts For Courses And Assignments
- Digital Badges And Credentials
- Ease Of Certification Authenticity

In this connection, I request you to grant permission to conduct the above said program. Hoping you early response for this approval.

Thanking you sir.

Enclosures:

CERTIFICATE PROGRAM

On **BLOCKCHAIN** *Organized By*

DEPARTMENT OF CSE

10th Dec 2022

to

21st Dec 2022

FROM 1.30 PM TO 4.30 PM

Registrations are accepted on before 09th Dec 2022

BLOCKCHAIN:

Blockchain is a shared, immutable ledger that facilitates the process of recording transactions and tracking assets in a business network. An asset can be tangible (a house, car, cash, land) or intangible (intellectual property, patents, copyrights, branding). Virtually anything of value can be tracked and traded on a blockchain network, reducing risk and cutting costs for all involved.

PROGRAM OUTCOME:

- Blockchain cannot be altered or reversed, which means participants can trust the data that they are presented with.
- In addition, blockchain's confidential nature protects users from identity theft, making it attractive to consumers and businesses alike.
- Blockchain enables businesses to transact in real time at any hour of the day, any day of the year. This is a contrast from bank transfers and payments that are only available during business hours and have cutoff times.
- Blockchain also lowers costs for businesses, especially those that have high-value, high-volume transactions that cause fees to add up.

REPORT

Date: 23/12/2022

Academic Year: 2022-2023

Class and Semester: CSE II year II Sem

Title: BLOCKCHAIN

Duration: 32 Hours (3 Hrs per Day) during 10th Dec 2022 to 21st Dec 2022

Number of students completed the Add-On/Certification Program: 332

Summary Report of the Program with Outcome:

Blockchain technology is revolutionary. It will make life simpler and safer, changing the way personal information is stored and how transactions for good and services are made. Blockchain technology creates a permanent and immutable record of every transaction. This impenetrable digital ledger makes fraud, hacking, data theft, and information loss impossible. The technology will affect every industry in the world, including manufacturing, retail, transportation, healthcare, and real estate Companies as Google, IBM, Microsoft, American Express, Walmart, Nestle, Chase, Intel, Hitachi, and Dole are all working to become early adopters of blockchain. Nearly \$400 trillion across various industries is set to be transformed by blockchain.

The student can get Knowledge on:

- Micro-credentialing
- Secure and private E-Learning environment
- Verification of educational achievements
- Data-driven decision-making

Respected sir,

Sub: Requisition to conduct Add-on/Certification Program on “**SMART SYSTEMS**” for III II,III,IV year students from 3rdMay 2023 to 13thMay 2023.-reg.

It is our pleasure to inform you that the department of CSE is planning to conduct Add on/ Certification program on “SMART SYSTEMS” II,III,IV year CSE students from 3rdMay 2023 to 13thMay 2023. This course contains complete understanding stand-alone systems or systems that help users to make decisions incorporating available data from different sensing, in a way to control and make smart action. Hands-on experience on software and technologies involved in Smart Systems.

The student can learned as:

- Implement a solid Smart Systems foundation
- Smart Extraction and Analysis
- Smart Distribution System
- Smart Grid based System

In this connection, I request you to grant permission to conduct the above said program. Hoping you early response for this approval.

Thanking you sir.

Number of students Completed Add-on/Certification Program: 306

Summary Report of the Program with Outcome:

This course contains Complete understanding SMART SYSTEMS, System Design Process, the multidisciplinary, team-based approach to engineering problem solving. In the course, student SMART SYSTEM uses active, collaborative and platform-based learning pedagogy.

The student can get Knowledge on:

- Implement a solid SMART SYSTEMS foundation.
- Smart Extraction and Analysis.
- Smart Distribution System.
- Smart Grid based System.
- System Design Process
- Platform-based learning
- Team-based approach
