To observe this day different events, take place including movements or March across the globe. There are some countries where women are not treated equally. For many people, the role of women is limited to household chores only. However, this needs to change as women deserve equal freedom and opportunities in everything like men.

The world is moving towards gender equality. It is moving towards a balance between To observe this day different events, take place including movements or March across the globe. There are some countries where women are not treated equally. For many people, the role of women is limited to household chores only. However, this needs to change as women deserve equal freedom and opportunities in everything like men.

The world is moving towards gender equality. It is moving towards a balance between both men and women. A change is required and is also essential. It is observed that men have more advantages in every sphere of life in comparison to women since ages. However, this needs a change as we all are humans and should be treated equally with equal rights and opportunities.

On International Women's Day, everyone appreciates the women in their lives. Everyone acknowledges the worth and significance of women in their lives, and their tremendous contribution to society as well. Women's Day is all about making society realize that each individual has to work differently and changing society towards a better future.

GENDER SENSITIZATION

Gender sensitization refers to the raising sensitization of gender equality concerns. it helps people in examining their personal attitude and beliefs and questioning realities of both genders.

Gender Equity & Sensitization in Curriculum:

The course on “Gender Sensitization (An Activity based Course)” was introduced by the affiliating university JNTUH as a compulsory foundation course with two credits in II year II semester in B.Tech for all branches of Engineering and Technology from the academic year 2015-16 (with existing R13 & R15 regulations. It should be treated as a Lab Subject (Student Centered). Further continuing with “Gender Sensitization Lab” from 2016-17 onwards.

Learning Outcomes of the Course

Students will have developed a better understanding of important issues related to gender in contemporary India. Students will be sensitized to basic dimensions of the biological, sociological, psychological and legal aspects of gender. This will be achieved through discussion of materials derived from research, facts, everyday life, literature and film. Men and women students and professionals will be better equipped to work and live together as equals.
