To
The Principal,
Vaageswari College of Engineering,
Karimnagar.

Respected sir,

Sub: Requisition to conduct Add-on/certification program on "SURVEYING OF AGRICULTURAL LAND USING TOTALSTATION" for II, III & IV year I sem Students from 24th November 2016 to 05th December 2016-reg.

It is our pleasure to inform you that the Department of CIVIL ENGINEERING is planning to conduct Add-on/Certification program on "SURVEYING OF AGRICULTURAL LAND USING TOTALSTATION" for II,III & IV year I sem CIVIL students from 24th November 2016 to 28th November 2016. This certificate programme consists of special features of Total stations for measuring distance and angles. To know about Optimization of time by using total station.

The student can achieve knowledge on:

- Basic features and fundamentals of total station.
- Advantage of total station over other equipment.
- Topographic surveying

In this connection, I request you to grant permission to conduct the above said program. Hoping you early response for this approval.

Thanking you sir.

Yours faithfully

SURVEYING OF AGRICULTURAL LAND USING TOTAL STATION

Organized By

DEPARTMENT OF CIVIL

24th NOVEMBER 2016

To

05th DECEMBER 2016

FROM 1.30 PM TO 4.30 PM

Registrations are accepted on or before 23rd NOVEMBER 2016

TOTAL STATION:

A Total Station is an electronic/optical instrument used in modern surveying and building construction that uses electronic transit Theodolite in conjunction with electronic distance meter (EDM). It is also integrated with microprocessor, electronic data collector and storage system

PROGRAM OUTCOME:

- ❖ Learning setting up Total station
- ❖ Learn stationing and orienting To a direction and back site point
- ❖ Learn Setting out lines and levels for buildings, kerbs, manholes
- ❖ Learning Formulate the setting out of curve by linear and angular methods.

Day	Topics Covered	Time
Day 1	Introduction	1:30 to 4:30 pm
Day 2	Parts and working principle of Theodolite instrument.	1:30 to 5:00 pm
Day 3	Basic features and fundamentals of total station	1:30 to 4:30 pm
Day 4	Measurement of distance, angles using total station.	1:30 to 4:30 pm
Day 5	Advantage of total station over other equipment	1:30 to 4:30 pm
Day 6	Formulate the setting out of curve by linear and angular methods.	1:30 to 5:00 pm
Day 7	Basic characteristic of total station and Determination of area and height of any objects.	1:30 to 4:30 pm
Day 8	Comparison of basic characteristics and calculations by using Total station with traditional system of surveying.	1:30 to 5:00 pm
Day 9	Mapping functions of total station	1:30 to 4:30 pm
Day 10	Topographic surveying	1:30 to 5:00 pm

To
The Principal,
Vaageswari College of Engineering.

Respected Sir,

Sub: Requisition to get permission to conduct Certification Course on “**Home Automation using IoT**” from 20th Feb. – 25th Feb. 17.

It is our privilege to inform you that we EEE Department is planning to conduct a Certification Course on “**Home Automation using IoT**” for our 02nd, 03rd, and 04th year Electrical and Electronics Engineering students from 20th Feb 2017 – 25th Feb 2017.

The concept of Home Automation aims to bring the control of operating your every day home electrical appliances to the tip of your finger, thus giving user affordable lighting solutions, better energy conservation with optimum use of energy. Apart from just lighting solutions, the concept also further extends to have a overall control over your home security as well as build a centralized home entertainment system and much more. The Internet of Things (or commonly referred to as IoT) based Home Automation system, as the name suggests aims to control all the devices of your smart home through internet protocols or cloud based computing.

The IoT based Home Automation system offer a lot of flexibility over the wired systems s it comes with various advantages like ease-of-use, ease-of-installation, avoid complexity of running through wires or loose electrical connections, easy fault detection and triggering and above and all it even offers easy mobility.

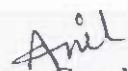

In this connection we request you to consider our request and grant permission to conduct the above said program. Hoping you early response for this approval.

1. What did you enjoy most during the Add on course?

I learn how home appliances are controlled by IOT like lightning, smart locks, smart energy meters & smart switches.

2. How will you implement this into your academics?

By using of IOT Technique we want to implement a project on AC control.

Any Suggestions: The program was good and helpful. I want one more program on IOT. The speaker was present a good seminar on this topic.

To

The Principal,
Vaageswari College of Engineering,
Karimnagar

Respected Sir,

Sub: Requisition to get permission to conduct Certification Course on **"Recent Trends in Electrical Power Systems"** from 16th Aug. 2016 to 20th Aug. 2016.

It is our privilege to inform you that we EEE Department are planning to conduct a Certification Course on **"Recent Trends in Electrical Power Systems"** for our 02nd, 03rd, and 04th year Electrical and Electronics Engineering students from 16th Aug. 2016 – 20th Aug. 2016.

Electricity plays a vital role in our day to day life and also there is a great demand for electricity today. Transmission losses are also one of the reasons for this demand. Since transmission is a main part of the power system it should be more efficient.

During Transmission there is a loss of 30%. To eliminate these losses we need a new technique which is called recent trend. The recent trend for efficient transmission of power is the "wireless power transmission system". The transmitter uses the optical feedback to locate and track the receiver. The transmitter can optionally employ a macro adjusters and micro adjusters that direct the beam onto the receiver for optimal power transmission.

In this connection we request you to consider our request and grant permission to conduct the above said program. Hoping you early response for this approval.

Thanking you Sir,

Yours faithfully

RECENT TRENDS IN ELECTRICAL POWER SYSTEMS:

Electricity plays a vital role in our day to day life and also there is a great demand for electricity today.

Transmission losses are also one of the reasons for this demand. Since transmission is a main part of the power system it should be more efficient.

During transmission there is a loss of 30%. To eliminate these losses we need a new technique which is called recent trend.

The recent trend for efficient transmission of power is the "wireless power transmission system".

The transmitter uses the optical feedback to locate and track the receiver. The transmitter can optionally employ a macro adjusters and micro adjusters that direct the beam onto the receiver for optimal power transmission.

The system also optionally has a tight loop beam detector to enhance the safety of the system. Either the receiver or transmitter may also encode data on the energy transmission, resulting in one way or two-way data transmission.

PROGRAM OUTCOME:

The transmitter uses the optical feedback to locate and track the receiver. The transmitter can optionally employ a macro adjusters and micro adjusters that direct the beam onto the receiver for optimal power transmission.

The recent trend for efficient transmission of power is the "wireless power transmission system".

Department of Electronics and Electrical Engineering

REPORT

Academic Year : 2016-17
Class and Semester : B.Tech II,III,IV year I semester
Title : RECENT TRENDS IN ELECTRICAL POWER SYSTEMS
Course Duration : 30 Hours (6 Hrs per day) during 16 Aug 2016 – 20 Aug 2016

Number of students completing the Certificate Course: 20

Summary Report of the Programme with Outcome:

- ❖ Electricity Generation In India
- ❖ Energy Production
- ❖ Power Grid Transmission Network Failure
- ❖ Overview Of The Existing System
- ❖ State-Of-The-Art SCADA/EMS System
- ❖ Smart Grid

The student can get Knowledge on:

- ❖ Maintenance of continuous supply of power with an acceptable quality, to all the consumers in the system. The system will be in equilibrium, when there is a balance between the power demand and the power generated.

To
The Principal,
Vaageswari college of Engineering,
Karimnagar.

Respected sir,

Sub: Requisition to conduct Add on/Certification program on "**Big Data Analytics**" for II and III year II Sem students from 01st March 2017 to 17th March 2017-reg.

It is our pleasure to inform you that the department of CSE is planning to conduct Add-on/certification program on "**BIG DATA ANALYTICS**" for B.Tech II and III Year II Sem CSE students from 01st March 2017 to 17th March 2017. This course is responsible for designing, maintaining analytical cases and responsible for complex data processing systems that work with large data sets. It is a huge field with a wide range of opportunities.

The student can learned as:

- Identify Big Data and its Business Implications.
- List the components of Hadoop and Hadoop Eco System
- Access and Process Data on Distributed File Systems
- Manage Job Execution in Hadoop Environment
- Develop Big Data Solutions using Hadoop Eco System

In this connection, I request you to grant permission to conduct the above said program. Hoping you early response for this approval.

Thanking you sir.

REPORT

Date: 30/03/2017

Academic Year: 2016-2017

Class and Semester: CSE II and III year II Sem

Title of Add on/Certification Program: BIG DATA ANALYTICS

Duration: 30 Hours (2hrs per day) during 01-03-2017 to 17-03-2017.

Number of Students completed the Add-on/Certification Program: 15

SUMMARY REPORT OF THE PROGRAM WITH OUTCOME

Big data analytics is the often complex process of examining big data to uncover information such as hidden patterns, correlations, market trends and customer preferences that can help organizations make informed business decisions.

The student can get knowledge on:

- Analyzing Big Data. It serves as an introductory course for graduate students who are expecting to face Big Data storage, processing, analysis, visualization, and application issues on both workplaces and research environments.
- Gain knowledge on this fast-changing technological direction. Big Data Analytics is probably the fastest evolving issue in the IT world now. New tools and algorithms are being created and adopted swiftly. Get insight on what tools, algorithms, and platforms to use on which types of real world use cases.
- Get hands-on experience on Analytics, Mobile, Social and Security issues on Big Data through homeworks and project.

Small Business Management:

Small Business Management is one of the most important topics for management Students. Small business management refers to the process of aligning and coordinating all aspects of a small business, whether it's managing your employees, suppliers, business finances, its roadmap or performing your daily tasks.

Managing a small business presents some unique challenges for the owner. Apart from the knowledge of the basics of small business principles, you also need to know financial management, human resource management and the laws and regulations related to your business.

PROGRAMME OUTCOME:

1. Develop an understanding of entrepreneurship and small business and appreciate their role in an economy.
2. Develop and demonstrate competence in basic business and marketing planning.
3. Demonstrate competence in identifying opportunities and challenges that entrepreneurs and small business owners/managers face in general - in trying to achieve their business objectives.

HUMAN CAPITAL MANAGEMENT:

Human Capital Management, you will know about practices that are focused on the organizational need to provide specific competencies and are implemented in three categories: workforce acquisition, workforce management and workforce optimization.

HCM is closely tied to an Enterprise Resource Planning (ERP) that can help manage, talent, monitor human capital, record results and direct decisions. ERP software can help ease the challenges of HCM by automating and providing structure to many of the day-day process of human capital management.

PROGRAM OUTCOME:

- ❖ Understanding basic purpose of Human Capital Management.
- ❖ Awareness of professional tools of HCM and risk benefit analysis of a Employee.
- ❖ Excelling in competitive and challenging environment to contribute to industrial growth.
- ❖ The students will learn the difference between HRM and HCM.

REPORT

Date: 19.12.2016

Academic Year: 2016-2017

Class & Semester: MBA I Year I Semester & II Year I Semester

Title: Human Capital Management

Duration: 34 Hours (2 hours per day)

Dates: 01-12-2016 to 18-12-2016.

Number Students Completed Add On Course: 73

Summary Report of the Programme with Outcome:

This Add on Course provided an opportunity for the students to learn the basic features of Human Capital Management.

By learning Human Capital Management, you will know about practices that are focused on the organizational need to provide specific competencies and are implemented in three categories: workforce acquisition, workforce management and workforce optimization.

Human Capital Management (HCM) is to give students the knowledge, understanding and key skills that are required by today's HR professionals and to enable students to effectively contribute to dynamic organisations.

Human capital management is a comprehensive set of practices and tools used for recruiting, managing and developing employees.

HCM connotes an approach to human resource management that views employees as assets to be invested in and managed to maximize their business value. HCM goes beyond the traditional and mostly administrative functions of HR to include more strategic disciplines, such as talent management and employee engagement.

The students will understand the importance of HCM Tool in their professional careers.

Title of Add on Course: Automotive Sheet Metal Design Using NX CAD.

Course Duration: 30 Hours (3 hours per day) during 20-10-2016 to 5-11-2016.

Number Students Completing the Add On Course:103

Summary Report of the Programme with Outcome:

The Automotive Sheet Metal Design using NX CAD course provides an outline of the current Body in White (BIW) component design factors and detailed explanations about their significance to part function, cost, and reliability. Students are introduced to the basics of automobiles along with different models of car bodies. The basics of steel and its properties are covered in details because steel is an important component used in automobiles. To,

The Principal,

Vaageswari College of Engineering,

Sub: Requisition to conduct add-on/certificate program on "Finite Element Analysis using ANSYS" for our mechanical students from 10-3-2017 to 31-03-2017-reg.

It is a pleasure to inform you that the Department of Mechanical Engineering is planning to conduct an Add on/Certificate Program on "Finite Element Analysis using ANSYS" from 10-3-2017 to 31-03-2017.

This is an introductory course on Finite element Analysis (FEA) using ANSYS and is specially meant for Engineering Students and practicing professionals. ANSYS is a popular and well recognized general purpose finite element modeling package for numerically solving a large range of problems including static, dynamic mechanical, structural analysis (linear and non-linear), heat transfer and fluid problems, as well as acoustic and electromagnetic problems. It is widely used in the mechanical, automobile, structural, chemical and aeronautical industries. The main objective is to introduce to the Finite Element Analysis (FEA) concepts and make familiar with the tools and techniques of the ANSYS software package.

In this connection I request you to grant permission to conduct the above said course. I am looking forward to hear from you soon regarding this approval. This is for your information and kind approval.

Thanking you sir,

Yours faithfully

Finite Element Analysis using ANSYS:

This is an introductory course on Finite element Analysis (FEA) using ANSYS and is specially meant for Mechanical Engineering Students and practicing professionals. ANSYS is a popular and well recognized general purpose finite element modeling package for numerically solving a large range of problems including static, dynamic mechanical, structural analysis (linear and non-linear), heat transfer and fluid problems, as well as acoustic and electromagnetic problems. It is widely used in the mechanical, automobile, structural, chemical and aeronautical industries. The main objective is to introduce to the Finite Element Analysis (FEA) concepts and make familiar with the tools and techniques of the ANSYS software package.

PROGRAMME OUTCOME:

- ❖ At the end of the course the participant will be able to use the ANSYS package to solve basic engineering analysis problems using FEA techniques.
- ❖ The participants should have some basic concept of engineering mechanics and familiarity with desktop environment.
- ❖ Student will be able to numerically solve a large range of problems including static, dynamic mechanical, structural analysis (linear and non-linear), heat transfer and fluid problems, as well as acoustic and electromagnetic problems.
- ❖ The students will understand the importance of Ansys tool.

Title: Finite Element Analysis using ANSYS

Duration : 15 days

Dates: 10-3-2017 to 31-03-2017

Topics Covered:

- Module I –Creating Geometry
- Module II-model Creation
- Module III-Meshing
- Module IV- modification
- Module IV- Linear and Non-linear Analysis

Day Wise Schedule

Days	Topics covered
Day 1	Geometry commands - Points, curves, boundary surfaces and surfaces. Mid surfacing operations, Curve from surface operations
Day 2	Solid operations, Copying and Positioning operations.
Day 3	Coordinate system options, Node, material and property options, Element types
Day 4	2D Orthotropic Material and Layup/property options, Plate and laminate element options
Day 5	Load Set and Body Load options, Plate and laminate element options, Load Set and Body Load options, Remaining 'Load' sub menu options
Day 6	Constraint sub menu options, Analysis sub menu options
Day 7	Mesh Control sub menu, size on geometry options, Mesh control sub menu, custom size on curve options, Remaining mesh control sub menu option
Day 8	Geometry sub menu options, Between, Region, Connect and Transition commands, Interactive editing, remesh and edge member options, Copy, Radial Copy, Scale and Rotate options, Reflect and Extrude options, Revolve and Sweep options
Day 9	Curve Operations such as Trim, Extend etc. Project Operations - Nodes or Points onto Geometry, Move To and Move By sub menu operations, Rotate To, Rotate By and Align sub menu operations
Day 10	Scaling operations, Editing Operations on FE Entities, Editing Color thru Associativity Operations on FE Entities, Update Elements sub menu Part 1, top portion, Update Elements sub menu - Line Element options, Update Elements sub menu - 2D Element options
Day 11	Meshing Toolbox, Post Processing Toolbox Tools - Deform Contour Freebody, Data Table and Entity Editor Window Panes
Day 12	Cantilever Beam Model from Scratch, Linear Static Analysis, Cantilever Beam Model with Gap Contact
Day 13	Nonlinear Static Analysis
Day 14	Sandwich Panels, Linear Static Contact with Separation,
Day 15	Plate Nonlinear Transient Response Analysis

To
The Principal
Vaageswari College of Engineering,
Karimnagar.

Respected Sir,

Sub: Requisition Conduct Add-On certification program On “5G TECHNOLOGY” for 4th year I sem ECE Students From 11/09/2016 to 22/09/2016.

It is our Pleasure to inform you that the ECE Department is planning to conduct Add-On certification Program on “5G TECHNOLOGY” For our 4th year I sem ECE students from 11/09/2016 to 21/09/2016.

The Students can get learned as:

- Like its predecessors, 5G networks are cellular networks, in which the service area is divided into small geographical areas called cells.
- All 5G wireless devices in a cell are connected to the Internet and telephone network by radio waves through a local antenna in the cell.

In this Connection we request you grant permission to conduct the above said course. We are planning to give training during timings 1.30PM to 4.30PM. Hoping you early response for this approval.

Thanking You Sir,

Can

Yours Faithfully
