To

The Principal,

Vaageswari College of Engineering.

Respected Sir,

Sub: Requisition to get permission to conduct Certification Course on "**Artificial intelligence in power station**" in our Campus for our 02nd, 03rd, and 04th year Electrical and Electronics Engineering students from13th Feb. 20 –20th Feb. 20.

It is our privilege to inform you that we EEE Department is planning to conduct a Certification Course on "**Artificial intelligence in power station**" for our 02nd, 03rd, and 04th year Electrical and Electronics Engineering students from13th Feb. 20 – 20th Feb. 20.

Machine learning and electrical engineering professionals leverage Al to build and optimize systems and also provide Al technology with new data inputs for interpretation. The main feature of power system design and planning is reliability, which were conventionally evaluated using deterministic methods. Moreover, conventional techniques don't fulfill the probabilistic essence of power systems.

This leads to increase in operating and maintenance costs. Plenty of research is performed to utilize the current interest Al for power system applications. A lot of research is yet to be performed to perceive full advantages of this upcoming technology for improving the efficiency of electricity market investment, distributed control and monitoring, efficient system analysis, particularly power systems which use renewable energy resources for operation.

In this connection we request you to consider our request and grant permission to conduct the above said program. Hoping you early response for this approval.

Thanking you Sir,

Yours faithfully

PROGRAM OUTCOME:

Artificial Neural Networks and Expert systems can be used to improve the performance of the line. The environmental sensors sense the environmental and atmospheric conditions and give them as input to the expert systems

Efficient system analysis, particularly power systems which use renewable energy resources for operation.

To

The Principal,

Vaageswari College of Engineering.

Respected Sir,

Sub: Requisition to get permission to conduct Certification Course on "**Advanced electrical vehicles**" in our Campus for our 02nd, 03rd, and 04th year Electrical and Electronics Engineering students from16th Sep. 19 –20th Sep. 19.

It is our privilege to inform you that we EEE Department is planning to conduct a Certification Course on "**Advanced electrical vehicles**" for our 02nd, 03rd, and 04th year Electrical and Electronics Eng ineering students from16th Sep. 19 –20th Sep. 19.

This course focuses on some new defi nitions and methodologies of electrical drives that are facing new challenges raised by alternative fuel vehicles.

It states with the objectives, fundamentals, and current research issues of alternative fuel vehicles based electric drives, before moving on to new definitions of unified modeling of the entire electric drive system and design of the proposed DC active power filter aimed at energy storage system chaotic current elimination.

In this connection we request you to consider our request and grant permission to conduct the above said program. Hoping you early response for this approval.

Thanking you Sir,

Yours faith fully
