

YEARLY STATUS REPORT - 2021-2022

Part A	
Data of the Institution	
1.Name of the Institution	VAAGESWARI COLLEGE OF ENGINEERING
• Name of the Head of the institution	Dr. CHIDURALA SRINIVAS
• Designation	PRINCIPAL
• Does the institution function from its own campus?	Yes
• Phone no./Alternate phone no.	08782955333
• Mobile no	9502588609
• Registered e-mail	principal@vgsek.ac.in
• Alternate e-mail	s4.principal@gmail.com
• Address	BESIDE LMD POLICE STATION, RAMAKRISHNA COLONY, KARIMNAGAR - 505527
• City/Town	KARIMNAGAR
• State/UT	TELANGANA
• Pin Code	505527
2.Institutional status	

• Affiliated /Constituent	Affiliated				
• Type of Institution	Co-education				
• Location	Rural				
• Financial Status	Self-financing				
• Name of the Affiliating University	Jawaharlal Nehru Technological University				
• Name of the IQAC Coordinator	Dr. VENKATA REDDY ADAMA				
• Phone No.	08782227201				
• Alternate phone No.	08782955333				
• Mobile	8121860999				
• IQAC e-mail address	vgse.ecehod@gmail.com				
• Alternate Email address	s4.ecehod@gmail.com				
3.Website address (Web link of the AQAR (Previous Academic Year)					
4. Whether Academic Calendar prepared during the year?	Yes				
• if yes, whether it is uploaded in the Institutional website Web link:	https://vgsek.ac.in/uploads/College Academic Calender 2021-2022 000087.pdf				
5.Accreditation Details					
Cycle	Grade	CGPA	Year of Accreditation	Validity from	Validity to
Cycle 1	A+	3.28	2023	07/02/2023	06/02/2028
6.Date of Establishment of IQAC			15/11/2019		
7.Provide the list of funds by Central / State Government UGC/CSIR/DBT/ICMR/TEQIP/World Bank/CPE of UGC etc.,					

Institutional/Department / Faculty	Scheme	Funding Agency	Year of award with duration	Amount
Institutional	SPICES	AICTE	2022-23	100000
8.Whether composition of IQAC as per latest NAAC guidelines	Yes			
• Upload latest notification of formation of IQAC	View File			
9.No. of IQAC meetings held during the year	4			
• Were the minutes of IQAC meeting(s) and compliance to the decisions have been uploaded on the institutional website?	Yes			
10. Whether IQAC received funding from any of the funding agency to support its activities during the year?	No			
11.Significant contributions made by IQAC during the current year (maximum five bullets)				
<p>The Internal Quality Assurance Cell (IQAC) has made major contributions to strengthening quality assurance methodologies and activities. Since its inception, the IQAC has consistently performed the following assignments: 1)Strengthen and coordinate the organization's various endeavors, and institutionalize all good practices; 2)To improve and integrate the institution's varied activities, and institutionalise numerous beneficial strategies. 3) Provide a solid foundation for making decisions to promote institutional operations; Making sure that the quality culture is internalized. 4)Function as an evolving system for quality improvements in higher education institutions (HEIs);</p>				
<p>5) Ensure a greater level of conciseness and concentration in institutional activities towards quality improvement; 6)Create a structured system for documentation and interpersonal communication; 7)Improved teaching and research quality through continuous feedback by students to all those involved. Providing recommendations for the most effective administration methods to ensure optimal resource utilization and strengthened services to students as well as faculty.</p>				

12. Plan of action chalked out by the IQAC in the beginning of the Academic year towards Quality Enhancement and the outcome achieved by the end of the Academic year

Plan of Action	Achievements/Outcomes
Conduct of IQAC Meetings	<p>IQAC held four meetings, including 22.06.2022, 23.09.2022, 23.12.2022, and 23.03.2023. Data from several college activities was gathered and compiled. IQAC is responsible for storing data from college operations and events.</p> <p>Standard operating processes are created and updated regularly. Quality checks at different stages are conducted, along quality improvement methods are employed. Regular audits inside the organization were carried out. Quality-related actions will be recorded regularly.</p>
Curricular Development and Execution, Curriculum expansion, Feedback Mechanism, Evaluation Procedures and Amendments, Encouraging young teaching	<p>IQAC can ensure that all departments draft and adhere to departmental calendars for events (academic and co-curricular). IQAC will make sure that teaching plans are provided and strictly implemented in all departments. The departments should meet the goals outlined in the curriculum, and IQAC will verify the accomplishments that occur, IQAC will make sure that study excursions, field trips, collaborative discussions, and presentations are held in all departments. Students will have more opportunities to participate in field projects, Feedback is to be collected from students, alumni, parents, and others.</p> <p>The Feedback Panel will evaluate the feedback, create new projects, and issue notices on the college website. Setting up should be delegated to IQAC, IQAC will analyze the rate of dropping out and take deliberate initiatives to lower it. Department-specific test series will begin weekly, The IQAC has built a platform that allows fresh</p>

13. Whether the AQAR was placed before statutory body?

Yes

• Name of the statutory body

Name	Date of meeting(s)
Governing Body Meeting	26/02/2024

14. Whether institutional data submitted to AISHE

Year	Date of Submission
2022	24/02/2024

15.Multidisciplinary / interdisciplinary

Vaageswari College of Engineering is affiliated to Jawaharlal Nehru Technological University Hyderabad. Hence, all the courses has been adopted as per the university syllabus under Choice Based Credit System (CBCS) which is implemented by the JNTUH. Each program offered in multidisciplinary courses to have overall concepts in engineering and management. The Institute always encourages the faculty members to do research on interdisciplinary areas so as to meet industrial requirement as well as societal needs and also collaborate with industries to carry out real time projects. Interdisciplinary research shall bring obviously the new innovative ideas, techniques and methods to solve various problems encountered in the real time world. The Statutory regulator authorities like AICTE, and JNTUH are also emphasis regarding model curriculum about the introduction of interdisciplinary courses to students through open elective and professional electives.

16.Academic bank of credits (ABC):

All the subjects in different courses are to be registered by a student in a semester to earn credits in the Academic Bank Credit account of the student and the validity of such credits shall be as per norms. Credits shall be assigned to each subject/course in a L: T: P (Lecture Hours: Tutorial Hours: Practical Hours) structure, based on the following table. 1 Hr. Lecture per week 1 credit 1Hr.Tutorial per week 1 credit 1 Hr. Practical per week 2 Hour Practical (Lab)/week 0.5 credit 1 credit. Every student shall be eligible to get additional 20 credits if he/she completes equivalent courses in SWYAM/MOOCs. A Student can earn 2 credits by doing internship for a duration of one month during the semester break period, in the same way active participation in NSS which is related to survival skill learning during various events.. As on now grade is yet to be defined for these 2 credits they are not included in CGPA Calculations but internship shall be considered

17.Skill development:

Vaageswari College of Engineering is always in the forefront to conduct the various skill development programs to the benefit of students. In the same direction, faculty shall also improve their skill in the emerging areas by active participation. The has been organizing various awareness programs, Seminars, Workshops and field visits. Some of the students have been benefited by attending the programs. It brought, that the students understood the creativity and innovation techniques. Vaageswari Institution Innovation Cell has conducted awareness workshop which has intensified the skills of innovation and creativity in products development and marketing by the

professional students Organizing training classes continuously with the high end electronic and digital presentations. Making the students to participate in workshops, Debates and Reading Sessions. Motivating the students to organize group discussions and role playing. Making students to watch lecture series available in social media.skills to forfeit themselves in placements and also finishing school CRT training programs will organized every year. Telangana Association for Skill and Knowledge(TASK) initiated by state government of Telangana to all Higher Education Institution to give awareness on latest technologies, Industry readiness and Campus Recruitment. Our students are taking active participation in this program and placed in MNCs.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

Future generation need a reconfigurable education system in India on the framework of Indian knowledge System which should compete the world education system. It shall lead to recognize by the world that the distinctness of the India hold. It is only possible by of its cultural, civilizational values and awareness in all the fields. The statutory bodies such as AICTE and UGC instructs all the higher educational institutions to prepare academic curriculum n such a way that all the courses would be available in domicile candidate mother tongue for easy of understand and implement the technology in very quickly. In this context the management and principal of our institute instructed all the faculty members to prepare and write technical books in regional languages as per the AICTE and UGC guidelines.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

The outcome based education has been targeted in attainment of desirable quality education outcomes in terms of knowledge, skills, attitudes and behaviour at the end of a program completion. In class room teaching and at allied students activities with OBE objectives and making the associated efforts would achieve the desired goal. This entails a regular methodology for ascertaining the attainment of outcomes, and benchmarking these against the program outcomes consistent with the objectives of the program. The Institute adopts Outcome Based Education(OBE) and implements in teaching and learning process. Faculty members were trained in designing the courses and its syllabi to meet industrial and academic requirements of the students, justifying the Course Outcomes(CO) and mapping these CO with Program Outcomes(PO) and comparing the after assessment and evaluation process. Attainment of Course Outcomes would show the effective implementation of Teaching, Learning and Evaluation process to meet Outcome Based Education(OBE). Institute always thrives that educational quality must be measured by outcomes. Outcomes are dependent not only on inputs but also on the processes followed by an institution to convert

inputs into defined outcomes.

20.Distance education/online education:

The world has seen a new digital education revolution during COVID 19 world wide lockdown, during this period new online education tools has been revolutionarily developed and implemented very successfully. young generation also adopted without hesitation., In view of COVID19 coronavirus all over the country The new digital phase of 'New Normal life' and have taken centre of stage in students' life now. This 'New Normal life' is a transformed concept of education with digital mode of learning at the core of transformation. Online education allows students to attend classes from any location of their choice while it allows educational institutions to reach out to an extensive network of students, instead of being restricted by geographical boundaries. Students can interact with the teacher and get clarify their doubts through live chats or forums by staying at the comfort and safety of their home. On the positive note, online learning has made both teachers and students become more technology savvy. Both the teacher and the student community were quick enough to acclimatize with computers and smartphones. However, access to online education system still a challenge for many students due to various issues like power supply, internet connectivity and affordability of necessary devices. A robust and comprehensive strategy is the need of the hour at an institutional level to address these concerns. Online education has emerged as a suitable alternative amidst this chaos caused by the pandemic. It has become more of a necessity rather than an option. Hence the quality enhancement of online teaching-learning is at a very crucial stage. The institute offers many online lectures as well as usage of online class tools for effective utilization for preparation of notes, power point presentations, projects and internships.

4.3	Total number of computers on campus for academic purposes	709

Part B
CURRICULAR ASPECTS
1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

Vaageswari College of Engineering is an affiliated institution and adopts the curriculum designed by JNTU Hyderabad and follows the same. The curriculum is implemented both for UG/PG programs (B.Tech,M.Tech,MCA and MBA). For effective delivery of the curriculum, the following process is developed and deployed.

- As per academic calendar provided by the university is taken into consideration for making curriculum delivery plan. The academic calendar provides the date of commencement of the academic session, submission of mid-term exam marks, Parent Teachers meeting, the duration of the semester, the period of internal assessment tests, practical exam schedule, preparation holidays, final semester examinations etc. The University also declares the list of general and optional holidays to affiliated colleges.
- The academic performance of students is continuously and meticulously monitored by conducting special tests, Mid Term exams, during the semester to assess the attainment of Course Outcomes(COs). As the attainment of COs is the base for achieving the attainment of Program Outcomes, Program Specific Outcome and by which Vision and Mission of the institution, the institution takes all the possible measures to ensure the effective delivery of curriculum and attainment of COs for all the courses.

File Description	Documents
Upload relevant supporting document	View File
Link for Additional information	View File

1.1.2 - The institution adheres to the academic calendar including for the conduct of Continuous Internal Evaluation (CIE)

An academic calendar is prepared by the concerned official at the beginning of each semester in line with the University's calendar consisting of various curricular, extra and co-curricular activities. The calendar is uploaded on college website, displayed on notice boards and is communicated to students through emails.

Compliance of Continuous Internal Evaluation with Academic Calendar

1. Classes and Lab time-table: Time table Coordinator of each department prepares the time table as per the guidelines of affiliating university for the number of credit hours for each subject and the academic calendar prior to the start of the semester.
2. Course files and Lecture Plan: After the allocation of subjects to faculty, course file of each subject is prepared

consisting of detailed teaching plan.

3. **Internal Examinations:** The internal examinations are conducted as per the affiliated university academic calendar.
4. **Question Paper Setting:** The question paper of internal exams is prepared by concerned faculties and is approved by head of the department.
5. **Exam sheets evaluation:** The answer sheets are cross checked in each department to ensure transparent and unbiased evaluation.
6. **Assignments** In addition to the tests, assignments are also the part of Continuous Internal Evaluation.
7. **University Exams:** The tentative dates for university exams are indicated in the academic calendar. The final university exam schedule is also displayed on students' notice boards.
8. **Student Feedback:** At the end of academic session students submit their feedback for each subject through online feedback forms maintaining complete anonymity

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum

The "Gender Sensitization" course is creating awareness among students about sensibility with regard to issues of gender in contemporary India. This provides critical perspective on the socialization of men and women. It helps the students attain how gender discrimination works in our society and how to counter it. Apart from this the institution formed Grievances Redressal Cell to provide counseling, promote gender equity and also deals with related issues of safety and security of students as well as to dissolve discrepancies among students and staff.

Human Values and Professional Ethics/Professional Ethics

The Institution integrates Cross-cutting issues of the society like Moral Values, Human Values, Professional Ethics, Ethical

Values, Gender Equality, Environmental Awareness, which are inseparable part of the curriculum in the course "Professional Ethics" students are imparted the importance of ethics in engineering profession.

Environmental Studies/Environmental Science and Technology:
The course "Environmental Studies/Environmental Science and Technology", "Disaster Management" provides students with understanding of ecological balance for sustainable development, impacts of developmental activities and mitigation measures and environmental policies regulations.

Moral Values, Human Values & Professional Ethics:
The Induction programme is organized for students related to values and ethics is an integral part of the curriculum. The cross cutting issues such as Gender equality, Environment and Sustainability, Human Values and Professional Ethics courses are introduced by JNTUH.

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

The institute assesses students' learning levels through examinations, entrance exams, and induction programs. Faculty members prioritize addressing hurdles through multi-level strategies. Students are classified as slow, average, and advanced learners based on their performance in internal exams and feedback from teaching faculty, course coordinators, and department heads. Special remedial classes are arranged for slow learners to improve their learning, problem-solving, and presentation skills. Meanwhile, average, progressive, and advanced learners' needs are addressed through assignments, seminars, and peer-group discussions. Slow learners are further assisted through individualized counseling by the class in charge, with parents if needed. They are paired with good performers to enhance their learning abilities, inspired by soft skills like time management, anger management, problem-solving activities, team player attitude, adaptability, and active listening skills. Soft skills and inter-active communicative skills are effectively passed on to slow learners, and weak learners and rural students are converted into productive assets. Advanced learners are motivated to continue their higher level of learning through programs like coding contests, ORACLE certification, learning tools, business communication labs, and CATIA certification under CAD/CAM. Participation in technical, sports, quiz contests, and cultural activities helps slow and average learners become more motivated and perform well in academics.

2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

The college's teaching-learning process aims to provide students with a blend of traditional and modern technical knowledge, making learning student-centric and rewarding. Cooperative learning, experience-based learning, and problem-solving methodologies are adopted to ensure holistic development and facilitate lifelong learning and knowledge management.

Cooperative learning involves designing solutions for complex engineering problems and designing system components/processes that meet real-time cases through group analysis and brainstorming. Teachers use Mind Map learning methods to show the overall structure of a subject and the relative importance of individual parts.

Project works involving latest technologies and advanced software are encouraged, with final year students investigating 40 to 50 different problems under the supervision of project guides. Industry interaction and summer training are mandatory, with industrial field visits, practical training, and internships at renowned institutions like BHEL, ISRO, NTPC, TCS, Infosys, ONGC, and CMC. Pre-employment training involves projects in collaboration with industry, and periodic guest lectures on relevant employment skills are provided. Experiential learning includes practical courses, virtual labs, and awareness about technical knowledge regarding maintenance and repairing activities of various equipment. Various learning methods, such as problem-based, case-based, project-based, inquiry-based, computation-based, and cooperative, are implemented wherever feasible.

2.3.2 - Teachers use ICT enabled tools for effective teaching-learning process. Write description in maximum of 200 words

In the past two decades, the study of engineering has seen a significant shift towards the use of computers and related software. Engineering now relies on computers for design, analysis, and creation, transforming the traditional drafting tools and engineers' ability to sketch and draw. This has led to the development of Information and Communications Technology (ICT) tools. Vaageswari College of Engineering has modernized class rooms with ICT tools to create an effective teaching and learning environment. ICT tools enable students to improve their learning abilities compared to traditional methods. These

resources are used for lectures, case studies, chalkboards, Google class rooms, concept maps, mind maps, YouTube-based teaching, social media, Google meet, Microsoft Team, Google forms, Delnet, project-based methods, and experience-based methods. ICT tools play a crucial role in polishing students' accents and their presentation skills, enabling them to compete in employability competitions. ICT tools are widely used for online courses, referring online journals, online tests, seminars, workshops, and presentation of research papers. ICT also enhances communication skills, enabling students to refine their reading, writing, speaking, and listening skills. Project-based learning methods, which involve participatory, discussion, and demonstration-based learning, help students develop critical thinking, communication, and group dynamics skills.

2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

Vaageswari College of Engineering, affiliated to JNTUH, follows university regulations for syllabus, examination, evaluation, and degree awarding. The university issues an academic calendar for each year, including internal assessment, assignments, and other curricular and co-curricular activities. Transparency is maintained in the conduct and assessment of internal exams and assignments for theory, lab, project, and seminar. The faculty is audited by senior faculty to ensure syllabus coverage, course outcomes, and revised Bloom's taxonomy. The academic calendar layouts dates for internal assessment tests, projects, and term work submission. Internal assessments are conducted on a periodic basis over the entire semester, with evaluations for term work based on performance and evaluation of assignments, case studies, project-based learning, and experiments. Students are aware of their grades/marks obtained in a particular assignment or experiment, as the marks are awarded in front of them. Two internal tests are conducted for 35 marks, 5 marks for assignments, and an average of two tests is considered 40% of the total weight age in each theory subject along with the end semester examination of 60 marks. Parent teachers meetings are conducted in mid-semester to update parents about their ward's attendance and performance in internal assessment of all subjects.

File Description	Documents
Any additional information	View File
Link for additional information	https://vgsek.ac.in/uploads/2.5.1_21-22.pdf

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time- bound and efficient

Vaageswari College of Engineering has implemented a systematic assessment system to ensure the success of its students in both theory and practicals. The system empowers faculty with information to guide students towards academic success. Internal examinations, such as unit tests, assignments, lab continuous evaluation, and project evaluations, are conducted throughout the semester. Internal assessments (Mid 1 and Mid 2) are transparent and uniform, with key answers and question-wise marking schemes displayed on notice boards. Faculty evaluates papers within a week of test execution, and students can report any discrepancies. At the end of the semester, average marks of both Mid-tests are calculated and verified with students.

Assignments are evaluated based on a rubric shared with students, focusing on timely submission, clarity, and neatness. The faculty evaluates lab experiments, assigning performance marks based on the rubric. Lab submissions are taken in LMS, such as Google Classroom, allowing students to reflect on strengths and areas for improvement. Project evaluations are conducted in front of a panel of faculty members, with rubrics designed for problem formulation, literature analysis, presentation, and team work. These systems demonstrate transparency in dealing with grievances related to internal assessment at Vaageswari College of Engineering.

Link for additional information	https://vgsek.ac.in/uploads/2.5.2-2021-22.pdf

2.6 - Student Performance and Learning Outcomes

2.6.1 - Programme and course outcomes for all Programmes offered by the institution are stated and displayed on website and communicated to teachers and students.

The college has established clear program outcomes, program specific outcomes, and course outcomes for all programs. Faculty members prepare course files and laboratory manuals at the start of the academic year, which include department vision, mission, course syllabus, individual time table, program objectives, mapping matrices, unit plans, lesson plans, course plans, unit-wise material, direct and indirect assessments, student grading sheets, surveys/feedbacks, and CO-PO attainment sheets. These outcomes are framed by the department offering the program after

rigorous consultation with faculty and stakeholders. The college's program outcomes are widely propagated and publicized through various means, including the website, curriculum/regulations books, classrooms, department notice boards, laboratories, student induction programs, parent meetings, faculty meetings, alumni meetings, and the library. Program specific outcomes (PSOs) are specific skill requirements and accomplishments for students at the micro level and by the end of the program. POs describe professional accomplishments that students aim to attain by the time they complete the program. Course outcomes (COs) are direct statements of essential and enduring disciplinary knowledge, abilities, and learning depth expected upon completion of a course. The POs/PSOs and COs are published through electronic media on the college website and promoted in all interactions with students.

File Description	Documents
Upload any additional information	View File
Paste link for Additional information	https://vgsek.ac.in/uploads/2.6.1_PROOF_21_22.pdf
Upload COs for all Programmes (exemplars from Glossary)	View File

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

Course outcomes are defined and evaluated through program outcomes, which provide quantitative measurements of program outcomes. The performance of students in exams during each semester is used to compute the level of attainment of program outcomes (POs and PSOs).

The program coordinator prepares CO-PO & PSO mapping for all courses in the program in consultation with other faculty. Assessment methods include direct and indirect methods, with mid examinations conducted twice a semester and semester end examinations being descriptive.

Rubrics are formulated for the assessment of Laboratory, Mini Project, Major Project, Seminar, and Internship courses. Course outcomes are assessed based on set attainment levels, with a percentage of CO attainment set as the target. Practical course outcomes should satisfy at least one or more defined program outcomes, with a percentage of students scoring more than 80% in each measured criterion.

All courses contributing to the PO are evaluated through Course Outcomes using direct and indirect assessments. The overall results from assessments are compared with the expected attainment, and the PO is considered satisfied when the expected level is reached. If the target criterion level is not reached, the course coordinator takes necessary steps for improvement.

3.2 - Innovation Ecosystem

3.2.1 - Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge

Innovation is conversion of idea leading to improvement in way of doing things depending on availability of resources with guidance from those who are more experienced around us.

Objectives of the Cell

- To motivate students to bring out their hidden talents in various disciplines of Engineering,
- To provide platform to realize and believe in themselves.
- To empower students to become young entrepreneurs.
- To create an innovative environment for the students to discover, develop, deploy and express their skills and talents.
- To motivate students to take part in Hackathons & prototype development, Technical Tutorials.
- To encourage students to carry out their hidden talents in various disciplines of Engineering.

The institution offers training programs for students, focusing on innovation, entrepreneurship, and skill development. It provides facilities, guidance, and opportunities for students to

participate in technology usage for societal needs. The institution also organizes awareness meets, workshops, seminars, and guest lectures to develop entrepreneurial skills. It also hosts contests and competitions, invites local entrepreneurs, and has an Industry-Institute Partnership Cell for interaction with industries.

3.4 - Extension Activities

3.4.1 - Extension activities are carried out in the neighborhood community, sensitizing students to social issues, for their holistic development, and impact thereof during the year

The college organizes various extension activities to promote the institute-neighborhood community and sensitize students towards community needs. The college runs National Service Scheme Units, which conduct various extension activities in the neighborhood community.

These activities include residential seven-day camps, environmental awareness, women empowerment, national integrity, aids awareness, blood donation camps, and health checkup camps. The Indian government sponsors the National Service Scheme (NSS) as a public service program under the Ministry of Youth Affairs and Sports. The NSS aims to develop students' personality through community service, understanding their community, developing social and civic responsibility, mobilizing community participation, acquiring leadership qualities, democratic attitude, capacity to meet emergencies, and practicing national integration and social harmony. In Vaageswari College of Engineering, the NSS unit, under JNTUH Hyderabad, aims to develop leadership, patriotism, maintaining discipline, character building, spirit of adventure, and self-service. The college also organizes various programs to make students aware of social issues, such as environmental awareness, personal health and hygiene, diet awareness, road safety, tree planting, soil and water testing, plastic eradication, and more. These activities have a positive impact on students, developing their community relationships, leadership skills, and self-confidence.

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate infrastructure and physical facilities for teaching-learning. viz., classrooms, laboratories, computing equipment etc.

The institution is provided with good and modern infrastructure facilities for better teaching learning process. The campus is provided with excellent physical infrastructural facilities spread over 7.5 acres of land to support the teaching-learning process. The institution has total built up area of 28544 Sq.m. and carpet instructional area of 11880 Sq.m.

Classrooms: The institute has ample number of spacious and well equipped classrooms and the institute has well ventilated classrooms with proper lighting and acoustics. The dimensions of the classrooms are well designed for proper visibility and audibility of the board.

Seminar Halls: The college has sufficient number of seminar halls equipped with LCD projectors, WiFi, Audio, and ICT facilities to conduct various activities like conferences, workshops, guest lectures, webinars, and seminars etc.

Laboratories: The institute has well equipped laboratories with state-of-art infrastructure are established and maintained as per the curriculum activities.

Computing Equipment: The Institute has a well developed Computing resources which include 709 computer systems, server, scanners/printers, CD/DVD writers and accessories which are used for various purposes like Lab experiments, research activities, etc., The total internet bandwidth available in the institution is 1000 Mbps.

Paste link for additional information	https://vgsek.ac.in/uploads/4.1.1_proof2.pdf

4.1.2 - The Institution has adequate facilities for cultural activities, sports, games (indoor, outdoor), gymnasium, yoga centre etc.

The institution has adequate facilities to promote sports, games and various cultural activities and offers the individually an opportunity for all-round development by enhancing self-knowledge, personality development, courage and social interaction. The sprawling play area for outdoor sports and indoor games room is provided with adequate seating arrangements and material to play. To develop team spirit, leadership qualities and organizing abilities among the students sports hour is included along with regular curriculum.

EXTRACURRICULAR ACTIVITIES: The institute has an excellent in sports for both indoor and outdoor games. Indoor games room is available for Carom, Chess, Table Tennis, etc. Outdoor games are available for Kabaddi, Volleyball, Kho-Kho, Basketball, Badminton, Tennikoit and Throw-ball. College team participates regularly in these sports.

4.2 - Library as a Learning Resource

4.2.1 - Library is automated using Integrated Library Management System (ILMS)

To make the functioning of Central library easy, effective and automated, the institute has enabled the central library with NewGenLib and DELNET software's. The Library accommodates Faculty, Students and other Staff members to access various library facilities like:

- Books
- Journals
- e-books
- e-journals
- Rare Books
- Digital library service
- SWAYAM
- NPTEL
- SC/ST Book bank service
- OPAC (Online Public Access Catalog) service
- Thesis Reports carried out by Faculty

- Reports of project carried out by students
- Daily News Papers

The institute has a commodious Library with a total carpet area of 1050 Sq. mtrs. consists books of Engineering, Technology, Computer applications, and Management along with Journals, Magazines, Publications, Thesis, Project Reports, Rare Books. The reading room facility is available and can accommodate up to 160 people. Our Library consists of 7146 titles with 59,645 Volumes, 2438 e-books, 109 Journals and 10 Magazines along with Newspapers.

The NewGenLib software consists of modules on Acquisition, Cataloguing, Circulation, Article Indexing and OPAC. All the faculty, students, and other staff members are issued with Library account along with barcode, and books are enabled with barcode stickers and to circulate the books to faculty, staff and students, Laser Barcode Scanners are used to ease, accurate and speed up the circulation.

4.3 - IT Infrastructure

4.3.1 - Institution frequently updates its IT facilities including Wi-Fi

Vaageswari College of Engineering is committed to modernizing IT infrastructure facilities, such as internet bandwidth, computer configuration, all the class rooms and seminar halls equipped with LCD projectors, and ICT facilities, among other things, in order to provide state-of-the-art infrastructure for the teaching-learning process. In means of providing internet access to students and faculty, the institute is well equipped adequate number of systems with internet connectivity. The university places a high value on cutting-edge infrastructure to enhance and enable successful teaching-learning practices. Each department's requirements for updating of existing IT accessories, as well as the procurement of new equipments, and upgrading to new softwares are collected at the begining of academic year and the same is processed thorough proper channel.

The institute currently has about 709 systems with high configuration in various laboratories to fulfill the requirements of curriculum and content beyond the curriculum in order to make them current and industry requirements. The institute is committed to increasing internet bandwidth on a regular basis. To enable speedy internet access, internet bandwidth has been boosted to 1000 Mbps.

To accomplish 24x7 campus surveillance, CCTV cameras have been deployed in all notable and essential places. Because the IT area is rapidly expanding, the dedicated Network team is focused on improving IT infrastructure in order to give the best possible service to students. To conduct traning and placement related online exams, institution equipped all the computer labs with adequate facilities.

4.4.2 - There are established systems and procedures for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.

The institution constitutes a well defined process for the maintenance of its physical equipment, believing that regular maintenance of equipments ensure proper functioning for long period. The utilization of physical and academic facilities is taken care by respective section heads. There are standard operating procedures for proper utilization and maintenance of academic and other support facilities.

1. ACADEMIC SUPPORT: MAINTENANCE OF THE CAMPUS: Regular maintenance of electrical, plumbing, housekeeping, transport and

infrastructure in the entire college is supervised by the College supervisor. A team of around 20 women monitored by administrative staff regularly ensures the cleanliness and maintenance of the college. The common places, staff rooms and class rooms, laboratories, are cleaned daily and gardening is done periodically. To improve the physical ambience of the campus, several following initiatives are taken from time to time.

CLASSROOMS: At the beginning of each semester the readiness of the classrooms, ICT facilities and furniture are verified and also, all the classroom amenities are verified and maintained periodically to uphold effective teaching learning practice.

- **Maintenance:** Institution has a supervisor who regularly maintains the boards, benches, fans and lights. The black board, benches and windows are cleaned everyday by housekeeping staff.
- **Utilization:** As per the AICTE norms, each department is provided with the required number of classrooms for conducting class room activities.

5.4 - Alumni Engagement

5.4.1 - There is a registered Alumni Association that contributes significantly to the development of the institution through financial and/or other support services

Vaageswari college of Engineering Alumni Association includes all passed out students of the institute. Alumni association is a liaison to communicate and seek cooperation from the alumni working in academic institutions, research organizations, government and non government organizations etc in India and abroad to coordinate with the institution and to give suggestion to the existing students. The association works for the cause of improving the quality of the learning environment in the institute.

The alumni of our institution are placed in reputed organizations like TCS, IBM, WIPRO, INFOSYS, COGNIZANT, Tech Mahindra, HCL, ACCENTURE, Banking Sector and Government Services etc. The executive body periodically organizes alumni meets in the campus. The Alumni help the students by sharing their knowledge and experience of latest technology and encourage students in developing entrepreneurship skills and also provide placement opportunity.

Alumni association works for organizing invited lectures, seminars, workshops, training programs for the purpose of overall development of students and staff of the institute. It also works to impart knowledge about the latest technologies to the students of this institute who are largely from a rural set up. It also renders possible assistance to staff engaged in teaching, training, research, governance, administration and other matters.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of the institution

Vision:

To establish an institute which promote emerging technical skills for rural students and there by transforming them into globally competent personalities.

Mission:

- To educate students towards excellence in cutting edge technologies
- To work in association with industry and making the students productive and industry ready
- To instill students learn ethical and moral values towards society.

Objectives of the Institute:

The institution aims to provide comprehensive facilities, including:

- Offering academic programs tailored to meet the demands of the modern environment.
- Fostering the development of technical competency and instilling a culture of quality consciousness among students.
- Creating a globally contemporary and conducive environment for both students and staff.
- Continuously updating academic infrastructure such as libraries, laboratories, and social service initiatives.
- Implementing effective and efficient teaching-learning practices.
- Providing effective guidance in personality development and career prospects.

The institute has a structured administrative setup led by the Board of Governors (BOG), which includes the Chairman, General Secretary, Treasurer, Principal, and members, with defined duties as per government regulations. The Governing Council ensures accountability to members, the government, and the community for maintaining academic standards and fostering institutional growth.

The institute offers relevant academic programs, fosters industry-institution connectivity, and raises community awareness about evolving educational needs. It updates infrastructural facilities, including lab

6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

The college has a plan to make things work smoothly and reach its goals. The principal, along with department heads, makes sure everyone follows the plan. Teachers work hard to make the programs better. The management makes rules and plans carefully, considering everyone's opinions, like students, alumni, industry, faculty, parents, and themselves.

Here's how each group helps:

Students:

1. They give feedback on teaching methods, and the college listens and tries new ways.
2. They suggest new courses, and the college adds them to stay updated.

Alumni:

1. They inspire students for their careers, and their suggestions help pick courses that match industry needs.

Industry:

1. They tell students about job trends and offer internships to prepare them for work.
2. They train students for technical roles and leadership positions.

Faculty:

1. They join committees to make sure everything runs well and suggest improvements.
2. They help design programs and make sure students learn what they need to.

Management:

1. They keep everyone working together smoothly for the college to grow.

Parents:

1. They want their children to have good careers and further education.

6.2 - Strategy Development and Deployment		
6.2.1 - The institutional Strategic/ perspective plan is effectively deployed		
<p>The college embarked on a five-year strategic plan spanning from 2012 to 2017, with a vision to provide holistic education fostering academic excellence and professional ethics in students. Additionally, the plan aims to integrate technology, cultivate global competence, and nurture entrepreneurship among both students and faculty members. The strategic plan encompasses key goals centered around knowledge creation, including Institutional Development, Infrastructure Development, Strengthening Faculty, Research and Development, and Training and Placement.</p> <p>A strategic plan serves as a tool to assess effectiveness, identify deviations, and monitor the achievement of goals and targets. It fosters collective efforts across different levels of the institution.</p> <p>Training and Placement: Students undergo various skill enhancement programs focusing on soft skills, management skills, leadership skills, aptitude, and interactive communication skills.</p> <p>Technical Clubs: The college hosts clubs affiliated with prestigious societies such as the Institute of Electrical and Electronics Engineers (IEEE), Computer Society of India (CSI), and Indian Society for Technical Education (ISTE). These clubs promote cooperative learning, providing students with the exposure needed for higher education and career advancement.</p> <p>Industry Expert Interaction: Experts from various industries are invited to deliver guest lectures, while industrial visits and internships are integrated into the strategic plan to provide practical exposure to students.</p> <p>Workshops and Seminars: Technical workshops and seminars are organized, encouraging students to present research papers and participate in discussions within and outside the college.</p>

6.2.2 - The functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment and service rules, procedures, etc.

The Sree Vaageswari Educational Society, founded in 2003 under the leadership of Dr. G. Sreenivas Reddy Garu, is dedicated to the pursuit of education with a vision to nurture professionals with scientific intellect, innovation, and imagination. The society operates under a structured governance framework with various key roles and functions outlined as follows:

1. Chairman of Board of Governors: - Presides over the meetings of the Governing Body. - Exercises powers and duties assigned by the Society, in line with relevant governmental regulations and university statutes.

2. Secretary and Correspondent: - Acts as the custodian of the College's funds and properties. - Ensures implementation of decisions made by the Governing Body.

3. Principal: - Serves as the Chief Academic Officer, responsible for the overall administration of the College. - Custodian of all College records. - Assists the Secretary and Correspondent in executing Governing Body decisions. - Regulates the work of all employees and sanctions leave and permissions.

4. Head of the Department: - Responsible for effective teaching, laboratory instruction, and student assessment within their department. - Engages with industries and other institutions for educational program planning. - Participates in administrative planning at departmental and college levels.

6.3 - Faculty Empowerment Strategies

6.3.1 - The institution has effective welfare measures for teaching and non- teaching staff

Vaageswari College of Engineering prioritizes employee well-being by offering a range of monetary and non-monetary welfare measures. These include promotion and increments based on self-assessment, incentives for research publication, and financial aid for professional memberships. Transportation assistance and in-house skill development programs are also provided. Employees benefit from medical insurance coverage and access to the Employee Provident Fund. Various leave benefits, including special on-duty leave for professional development activities, are available. On-campus medical support and de-stress programs contribute to a conducive work environment. Professional Development Programs are organized regularly, and faculty members are encouraged to attend external development activities. Faculty members enjoy a four-week summer vacation after six months of service and have access to a Grievance Redressal Cell for prompt issue resolution. Overall, these measures reflect the institution's commitment to employee well-being and development, aiming to ensure a satisfied and effective workforce and contribute to its success.

6.3.5 - Institutions Performance Appraisal System for teaching and non- teaching staff

The Institute prioritizes quality teaching and employs a robust performance appraisal system to enhance faculty development and student outcomes. Faculty and staff annually self-assess their performance using provided forms, evaluated by Heads of Departments (HODs) and the Principal. Feedback from students and parents supplements this process. These appraisals facilitate individual growth and institute improvement. Submitted self-appraisals undergo review by HODs, Principal, and Management, influencing career advancement. Student feedback also informs

assessments. Parameters for teaching staff include technical guidance, research, community involvement, and student feedback. Non-teaching staff are evaluated on responsibilities and willingness to contribute. HODs submit reports to the Principal for final evaluation. This system encourages professional development, fosters communication, and enhances the institution's overall effectiveness.

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institution conducts internal and external financial audits regularly Enumerate the various internal and external financial audits carried out during the year with the mechanism for settling audit objections within a maximum of 200 words

Vaageswari College of Engineering maintains a clear and transparent financial system, ensuring responsible handling of funds and resources. Led by an accounts officer, the institution conducts an annual Internal Audit to uphold financial integrity. Proposals are made for various expenses such as laboratory equipment, library resources, salaries, infrastructure development, sports facilities, and maintenance.

Regular audits are conducted by the internal auditor to verify accounts and prepare audit reports. These reports are then submitted to the Principal for further action. Bills and vouchers are recommended by department heads, approved by the Principal and General Secretary, and audited by the internal auditor before payment. The accounts department meticulously records all expenses.

Before approving payments, the Head of the institution carefully verifies received materials and bills. Additionally, all bills and vouchers undergo regular auditing by the internal auditor. The institution's accounts are audited annually in compliance with government regulations. Prior to submission to the external auditor, the accounts department conducts an internal audit to ensure accuracy.

External auditors, appointed by the Educational Trust, conduct statutory audits by examining cash books, ledgers, bills, and other records. Any minor errors identified during audits are promptly rectified to prevent recurrence. The audited financial statements prepared by chartered accountants are presented to the Board of Governors for approval. Once approved, these statements are submitted to academic bodies at state and central levels, providing insights into fund management and aiding in budget preparation for the upcoming financial year.

6.4.3 - Institutional strategies for mobilization of funds and the optimal utilization of resources

Vaageswari College of Engineering has established a comprehensive process to ensure the effective and efficient utilization of available resources. Each department assesses its infrastructural needs and other requirements, which are then considered for budget allocation. With the approval of the Board of Governors (BOG), recurring and non-recurring budgets are allocated to departments.

The institution emphasizes the optimal utilization of finances for academic, administrative, and developmental activities aligned with its vision and mission. A dedicated financial team ensures the efficient organization of funds, with financial planning prepared well in advance. Budgeting involves input from various academic departments and administrative sections to project revenue, general expenditure, and capital expenditure.

The institute's main income sources include student fees and reimbursements from the government. Additional income is generated by renting out infrastructural facilities for conducting examinations like GATE, TSPSC, SBTET, POLYCET, ICET, ECET, TSLPRB, etc. This additional income is optimally utilized for students' and faculty development activities, infrastructural maintenance and development, library and laboratory enhancement, scholarships for deserving students, and the maintenance of gym and other student facilities.

Vaageswari College of Engineering ensures transparent and efficient financial management to support its academic and developmental endeavors. Through careful budgeting, monitoring, and utilization of funds, the institution strives to enhance its educational offerings and overall student experience.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

The Internal Quality Assurance Cell (IQAC) was established at Vaageswari College of Engineering in 2019 with the aim of enhancing the institution's quality initiatives. The college is committed to continually improving infrastructure, enhancing faculty competencies, and empowering students towards self-learning.

The primary task of the IQAC is to develop a system for conscious, consistent, and catalytic improvement in the institution's overall performance. It aims to contribute significantly during the post-accreditation phase by directing efforts towards promoting academic excellence.

Objectives:

1. Ensure continuous improvement across all institution operations.
2. Assure stakeholders, including parents, teachers, staff, employers, funding agencies, and society, of the institution's quality and integrity.
3. Develop a quality system for consistent improvement in academic and administrative performance.
4. Promote measures for enhancing institutional functioning and institutionalization of best practices.

Benefits:

1. Heightened clarity and focus in institutional functioning towards quality enhancement.
2. Internalization of the quality culture.
3. Enhancement and coordination among various institution

activities, institutionalizing best practices.

4. Provide a basis for decision-making to improve institutional functioning.

Functions:

1. Develop and apply quality benchmarks for academic and administrative activities.

2. Create a learner-centric environment conducive to quality education.

3. Collect and analyze feedback from all stakeholders on quality-related processes.

4. Disseminate information on quality parameters to stakeholders.

5. Organize workshops, seminars, and quality circles.

Strategies:

1. Ensure timely and efficient performance of academic activities.

2. Assure quality of academic and research programs.

3. Provide equitable access to academic programs.

4. Optimize modern teaching and learning methods.

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities

Since the inception of the Internal Quality Assurance Cell (IQAC) in 2019, Vaageswari College of Engineering has remained committed to elevating the quality of education and nurturing a culture of excellence among its students and faculty. Several initiatives have been launched to institutionalize quality assurance strategies and enhance various aspects of academic and administrative functioning.

1. Industrial Engagement: The college actively encourages industrial engagement through training, internships, workshops,

visits, and guest lectures by industry experts.

2. Outcome-Based Learning: Emphasis is placed on implementing outcome-based education across all programs to improve learning effectiveness.

3. Soft Skills and Aptitude Classes: Classes are conducted to enhance students' personality traits and employability skills.

4. Participation in Quality Audits: The college participates in quality audits recognized by state, national, and international agencies like NIRF, AISHE, and others.

5. Institute Innovation Council (IIC): An IIC has been established under MHRD to foster innovation and entrepreneurship among students.

6. Quality Programs and Events: Various programs such as seminars, webinars, guest lectures, and conferences are organized to promote quality enhancement.

7. Stakeholder Feedback Mechanisms: Processes are established to collect feedback from stakeholders to continuously improve services.

8. Integration of ICT Tools: ICT tools are integrated into the teaching-learning process to enhance effectiveness.

9. Mentor-Mentee Process: A mentor-mentee process is implemented to provide support for student development.

10. Ragging-Free Campus: Efforts are made to maintain a ragging-free campus environment along with a grievance redressal cell.

INSTITUTIONAL VALUES AND BEST PRACTICES

7.1 - Institutional Values and Social Responsibilities

7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year

The Institution ensures that there is a peaceful and harmonious ambiance to provide a confident atmosphere to our students. Gender sensitization programs are organized regularly by the Women Empowerment Cell to promote gender equity amongst the co-educational students, the cell designs relevant and outcome-based programs exclusively for the girl students throughout the year.

YOGA CENTR

The Institute initiates to promote Yoga and Meditation for peaceful mind of students and faculty by conducting separate sessions often preferably in the morning hours.

1. Safety & Security:

The Institute takes sufficient measures towards safety and security of girls students, in this regard the institution takes precautions on continuous bases on girls students from their boarding point and inside the vehicle.

2. Counseling:

An active counseling system followed in the institution provides effective counseling including gender-sensitive issues to the

students.

3. COMMON ROOM

A separate common room for girls students with resting facilities like beds, sufficient number of chairs. Electronic Sanitary Pad Vending Machine installed in common room.

4. DAY CARE CENTRE

The Institution at high extends provides a Day Care Centre for the Female Faculty and staff members.Young childrens/Kids.

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

The Institution is conscious of its responsibilities towards the environment and works on the principles of three "R's" model to maintain an eco-friendly campus.

- 1. Reduce**
- 2. Re-use**
- 3. Re-Cycle**

Solid waste management:

The solid waste generated in the campus includes food waste, cardboard material, paper waste, metal, wood etc.

- Single side papers are used for writing and printing circulars in all departments.

Liquidwastemanagement:

Liquid waste mainly consists of waste water from kitchen, washroom and mess. This waste water is carried through a sewerage system of underground pipes.

Biomedical waste Management:

- Biomedical waste is generated only in some particular areas like in chemistry lab and at the time of some particular event such as health day camp and blood donation camp and some medical field works where there is a use the masks, hand gloves, apronhead gears, eye covers.

E-wastemanagement:

The e-waste received at the institute includes batteries, up and discarded input devices such as mouse, keyboard, wires and cables.

Hazardouschemicalsandradioactivewastemanagement:

- Hazardous wastes are those that may contain toxic substances produced from laboratory wastes from chemistry lab. These wastes can react when exposed to corrosive, flammable, explosive or other materials.

7.1.9 - Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

The College believe that any values and ethics are included and nurtured at the young age. Accordingly the institution putting its effort to make students feel responsible to the nation.

- discuss the growth of the demand for civil rights in india for the bulk of Indians before the arrival of Gandhi in Indian politics.
- Know the culture and constitution of india

Institute organizes various activities in the college to make the students and staff understand the constitutional obligations, values, rights, duties and responsibilities of citizens like safety awareness,

Awareness program on right to cast vote:

The institute organizes the awareness program on the importance of vote right emphasizing that casting vote to honest representatives is building corruption free country.

Awareness program on RTI (2005) :

The institute also holds meetings to discuss the importance and utilization of RTI in and beyond the campus. The students propagate the significance of the act raising slogans in the nearby villages.

A program to remind article 51(A) :

Citizens following the constitutional act or values can be responsible and patriotic. To achieve this, the discussion of 51(A) holding meetings is very useful act of the institute that holds the meeting occasionally.

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

freeship program always strives to help student to achieve their career path by providing guidance, motivation, emotional support and role modeling. The program allows for working in gray areas to discuss openly with older students and highlight the positive side of an individual. During the discussion, inputs are provided for the betterment of the consultant. Then the activities are planned keeping in view the overall need of the students.

.EvidenceofSuccess. The freeship program has been conducted for the last four years with necessary modifications. The success of the program is evident from the following areas of improvementIncreased attendance

2] Increased participationImproved performance in formative evaluation

These observations are based on statistical data and feedback through various interactions and feedback from students such as industry, faculty, and parents.

ThePractice The freeship program always tries to help the student achieve his/her career path by providing guidance, motivation, emotional support, and role modeling.

7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust within 200 words

Vageswari College of Engineering was established in 2003 with a philanthropic vision of making technol ical education accessible to the rural community for whom technical education was out of

reach. The vision of the Institute includes the following objectives: To provide a graduate with technical knowledge of the highest order to help them meet all kinds of business challenges in a real time situation.

To reinforce the learning environment, the following academic facilities were created:

- 1.Laboratories with advanced equipment
- 2.Classrooms with good ventilation and that are ICT enabled.
- 3.An open access computerized library with sufficient content for exploration.
- 4.Wi-Fi and internet connectivity which is a much-needed tool for the present times.
- 5.DELNET, National Digital Library, and INFLIBNET.

The practices that exist in the institute are:

- 1.Facilitating faculty with access to Wi-Fi, Internet and ICT-enabled classrooms.
- 2.Encouraging faculty for higher education in-service.
- 3.Mentoring responsibility.
- 4.Providing access to e-resources and reference books as required.

A number of student support systems were established in the institute to provide a value-based living possible.

Some such systems are:

- 1.NSS and NCC units to help establish campus-community linkage and inculcate values of social responsibility and nationalistic feelings.
- 2.Absence of gender discrimination on campus.
